

TOLEDO BENCH

CODE: BANCA TOLEDO

DESCRIPTION

The Toledo Bench is a piece of urban furniture engineered to deliver comfort, relaxation, and dependable performance in public environments. The refined curved profile and armrests built into the lateral supports create a visually appealing complement for walkways, parks, and public squares.

Engineered to enhance urban infrastructure, the bench promotes active use of public spaces and contributes to a better quality of life for pedestrians. Built with premium materials, the bench delivers reliable resistance to harsh weather conditions and heavy, everyday use.

FEATURES

- Two structural side supports with integrated armrests
- One additional central support for enhanced stability
- 12-gauge steel sheet with optional laser-cut pattern or logo
- UV protection on all materials exposed to sunlight
- Wood planks with marine-grade polymer finish
- High durability against temperature fluctuations, solar radiation, and continuous outdoor use

Weather-change resistant

Manufactured from recyclable and sustainable materials

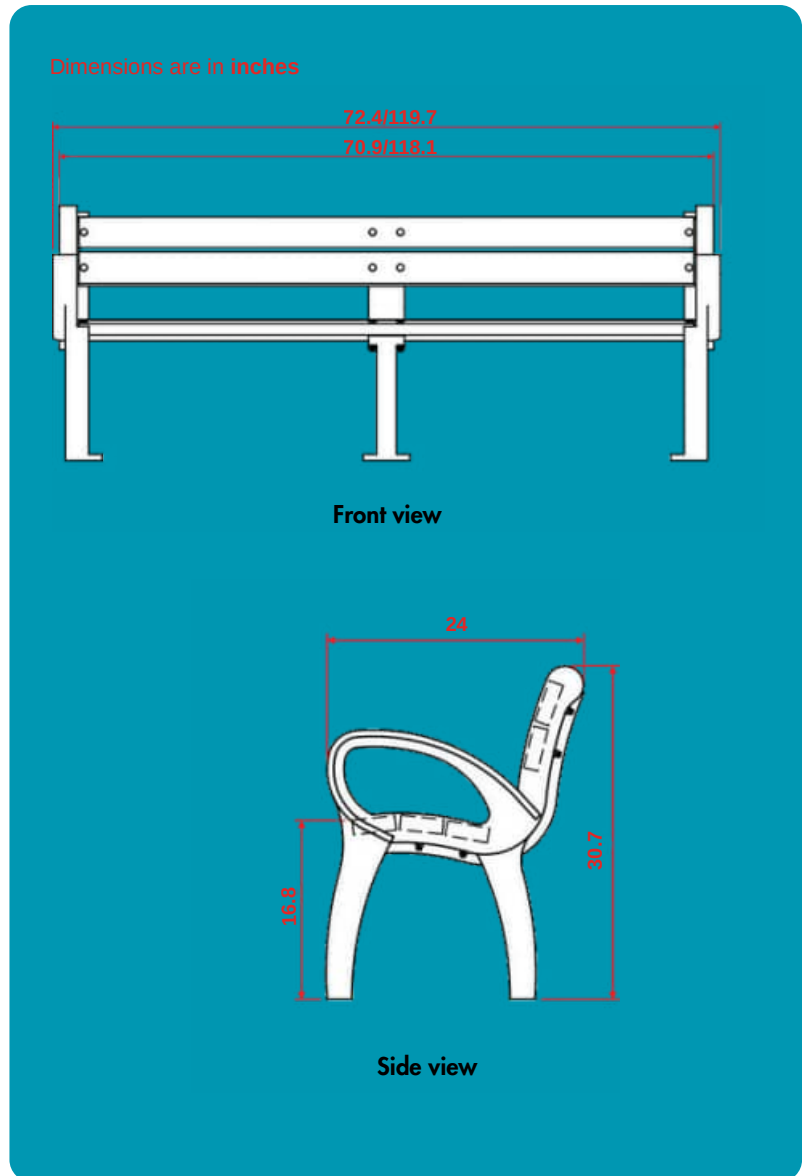

Impact- and deformation-resistant

DIMENSIONS

 Length	70.9 - 118.1 in
 Width	24 in
 Height	30.7 in
