

VERACRUZ OUTDOOR BENCH

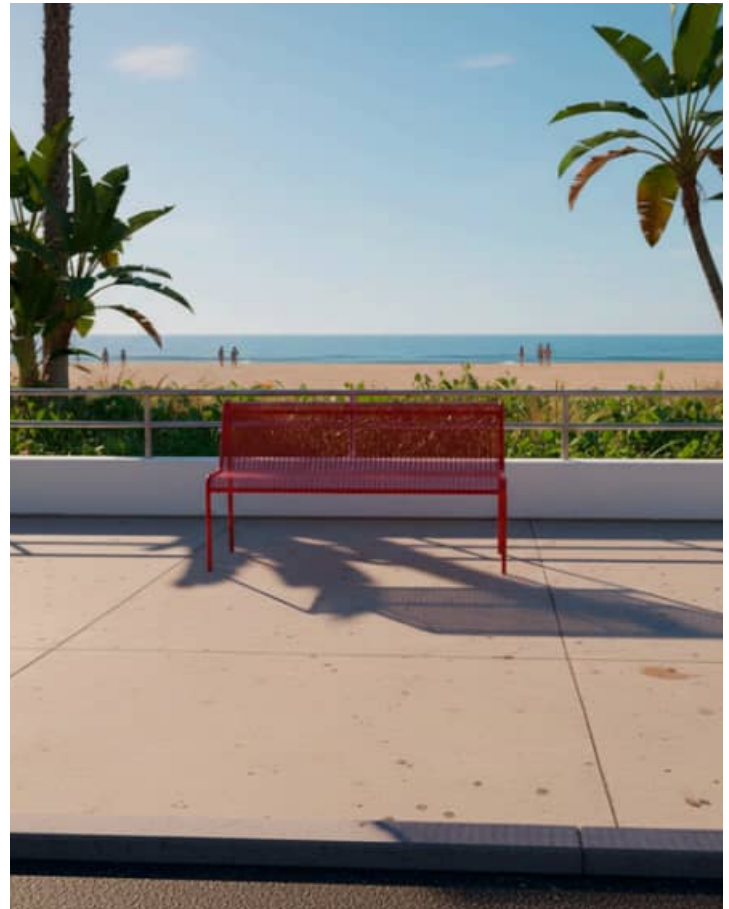

CODE: BANCA VERACRUZ

DESCRIPTION

The Veracruz Bench is a durable, practical, and highly functional solution for outfitting municipal areas, outdoor rest spaces, and urban environments. Engineered to combine strength, aesthetics, and modern design, this unit provides long-term performance and seamless integration across a wide range of settings.

Manufactured from perforated steel sheet combined with an 18-gauge, 1½" tubular steel frame, it delivers a sturdy construction that can be color-customized to suit any urban design concept.

With the dual corrosion-resistant treatment and UV protection, the Veracruz Bench endures demanding weather conditions and vandalism, preserving both its appearance and functionality with minimal maintenance.

FEATURES

- Durable UV- and corrosion-resistant finish, with color options such as green, blue, and red
- Seat and backrest made from perforated steel sheet
- Frame built with 18-gauge, 1½" tubular steel
- Engineered for strong vandal resistance
- Recommended floor anchoring; zero additional maintenance needed
- Accommodates up to five people

Weather-change resistant

Manufactured from recyclable and sustainable materials

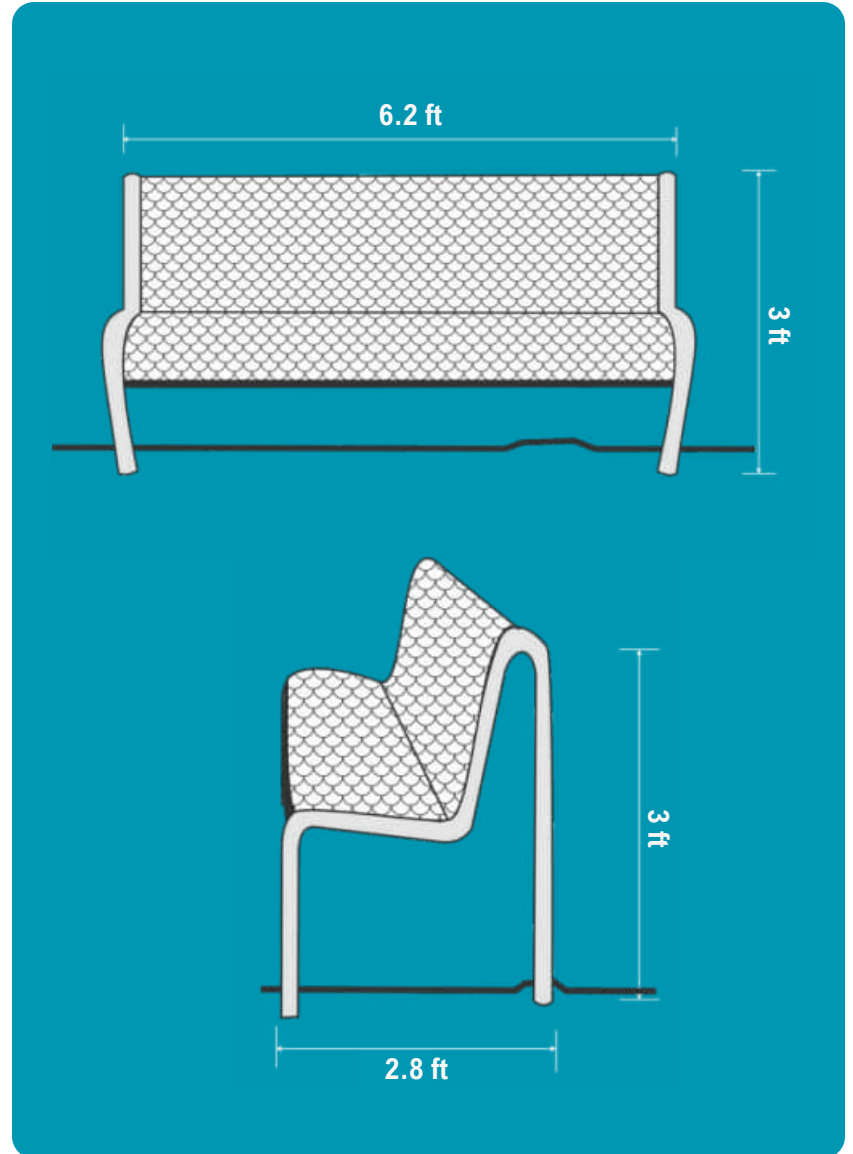

Designed for outdoor spaces

DIMENSIONS
