

GERMAN MODEL 580 PALLET BIN

CODE: BIN 580

DESCRIPTION

The **German Model 580 Pallet Bin** helps maintain product condition throughout storage and transport, contributing to lower waste levels and improved operational efficiency. A high-strength structure enables use in demanding, heavy-duty environments across agriculture, packing operations, and distribution centers managing auto parts and consumer products.

Stackable and nestable dimensions enhance space utilization during storage and logistics operations.

FEATURES

- Designed to reduce exposure to germs and bacteria during handling and storage
- Available in vented or solid configurations to match different operational needs
- Optional legs raise the container height, improving accessibility, simplifying cleaning tasks, and allowing handling with pallet jacks or forklifts
- An optional lid adds protection against external contaminants, pests, and environmental conditions
- Built-in fork entry points enable efficient handling with forklifts and pallet jacks
- A robust structural design resists impact and heavy stacking loads

Resists sudden temperature changes

This container delivers strong performance across agricultural operations

Designed with forklift access for efficient handling

DIMENSIONS

 Length	47.2 in
 Width	39.3 in
 Height	22.8 in

Container color classification:

DESIGN & USE

- Protects products during storage and transport, helping maintain consistent condition throughout handling processes
- A stackable empty configuration significantly reduces load volume and improves logistics efficiency
- Hygienic structural features enable use with food products and contamination-sensitive goods
- Delivers versatility for a wide range of industrial, agricultural, and commercial applications

Versatile for demanding industries and food handling
