

GERMAN MODEL 760 R PALLET BIN

CODE: BIN-760-R

DESCRIPTION

The **German Model 760 R Pallet Bin** helps maintain product condition throughout storage and transportation. Resistance to daily heavy-duty handling and a hygienic construction make it well suited for industrial, agricultural, and packing environments where cleanliness and durability are required.

Designed to handle automotive components as well as consumer products, this container improves logistics efficiency, reduces transportation costs, and maximizes available space through stackable functionality.

FEATURES

- Slotted side walls enable airflow or liquid drainage, making the container suitable for fresh or moisture-prone products
- A smooth interior surface helps prevent residue accumulation from solids or liquids
- Available options include a safety lid, drain valve, and reinforced legs to adapt to operational needs
- Forklift and pallet jack access allows efficient handling during daily operations
- Designed to handle extreme conditions, prolonged sun exposure, chemical contact, and frequent impacts

Resists sudden temperature changes

This container performs reliably in diverse industrial environments

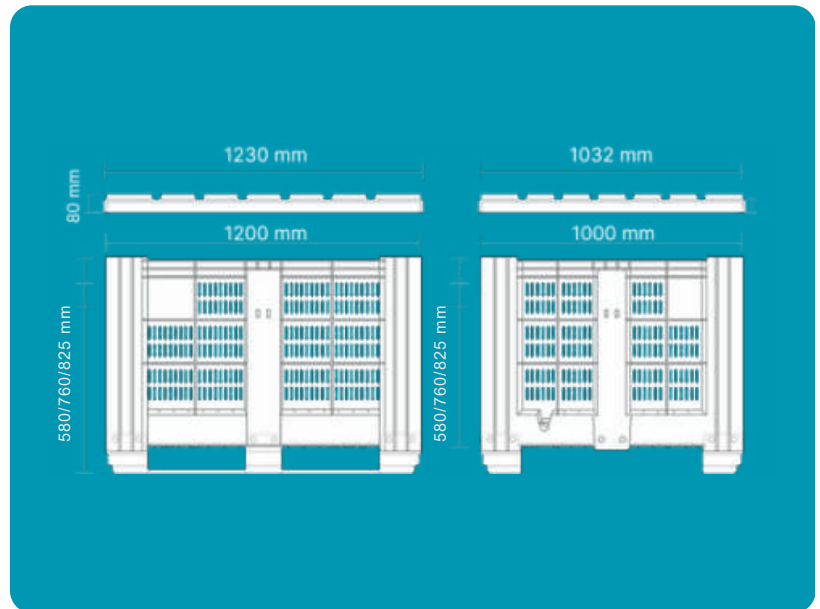

Designed with forklift access for efficient handling

DIMENSIONS

 Length	47.2 in
 Width	39.3 in
 Height	29.9 in

Container color classification:

DESIGN & USE

- Simplifies transport and storage through a stackable configuration and compatibility with loading equipment
- A protective structure helps reduce physical damage and contamination, lowering product loss
- Suitable for fruits, vegetables, industrial components, auto parts, textiles, and related products
- Stackable and nestable functionality improves space utilization in warehouses and transportation units

Versatile for demanding industries and food handling
