

# SINFONIA BODY BAG

CODE: SINFONÍA

## DESCRIPTION

Designed for the safe and proper transport of human remains. Made from durable polymer to provide protection against tears and punctures, ensuring secure handling in sensitive situations.

The airtight closure and liquid-retention capacity make it ideal for preservation during body transport. Additionally, its design meets safety standards for handling these cases, offering confidence to both healthcare professionals and funeral service providers.

Specially engineered for applications requiring controlled incineration, ensuring clean and safe combustion. Its chlorine-free composition and minimal heavy metal content significantly reduce harmful emissions during the incineration process.

## FEATURES

- Airtight closure: Prevents leaks, ensuring secure transport
- Security seal: Enhances trust and compliance with safety standards
- Compact & flexible: Easy storage and handling
- Regulatory compliance: Meets health regulations for safe handling and transport of human remains

Complies with

**NOM-087-SEMARNAT-2002  
STANDARD**

Biological  
waste only

Hazardous  
waste only

Sharp object  
protection

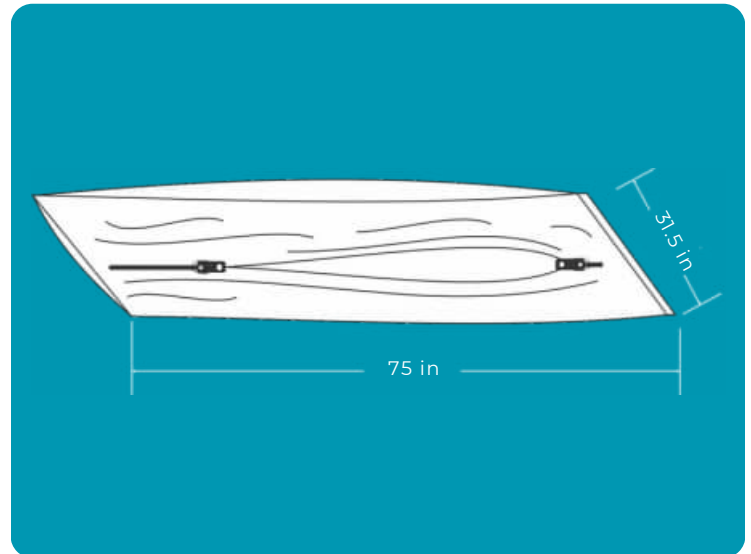

Controlled  
incineration

## DIMENSIONS

	Width	31.5 in
	Height	75 in
	Nominal capacity	441 lb
	Standard weight	1.05 lb

## MATERIAL COMPOSITION

	Chlorine-free
	Total heavy-metal content: $\leq 1$ ppm

## AVAILABLE COLORS

## DESIGN & USE

- The **Sinfonía Body Bag** provides maximum protection
- Durable construction: Made from high-strength polymer that resists tears and punctures
- Easy handling: Designed for the safe and practical transport of human remains
- Vehicle-friendly: Compact and flexible for convenient storage and transport
- Discreet design: Dark color preserves dignity and respect

Ensures secure and  
efficient handling
