

FUNNEL-TOP TRASH CAN

CODES: **BASE2860 P3 / BASE3860**

DESCRIPTION

The **FUNNEL-TOP TRASH CAN** is made up of two main components — the body and the lid (manufactured from stainless steel —). Engineered for optimal performance and long-term durability, these units are virtually maintenance-free.

The sturdy construction resists dents and scratches, and the polished finish offers a sleek, high-end look.

When maintained clean and glossy, the surface reflects its environment like a mirror, creating an impression of brightness and hygiene.

- Manufactured from 22-gauge type 430 stainless steel sheet, ensuring durability and practicality
- Removable lid for quick and easy access to the interior of the container
- A high-strength plastic base protects both the bin and the supporting surface, preventing scratches and stains even in humid conditions
- Resistant to sunlight, rain, and corrosion

DESIGN & USE

- Designed for both indoor and outdoor environments, the funnel-top trash cans are engineered to block large objects from entering, ensuring cleaner, more efficient operation.
- The cylindrical design combines simplicity and elegance while taking full advantage of stainless steel's strength, durability, and low maintenance
- Perfect for offices, hotel lobbies, residences, hospitals, public squares, and shopping centers — any setting where style and functionality go hand in hand
