

VIC-240

DESCRIPTION

The material of the trash can **VIC-240** is medium-density polyethylene that gathers the highest fluidity conditions and the highest resistance to hits and breaks. It's manufactured through a rotational molding process.

- It includes UV protection that guarantees less wear and tear.
- It has two parts: body and lid.
- The lid, slightly larger than the body, achieves hermetic sealing; this prevents the leakage of bad odors and sources of infection and water from entering.
- Conical body.
- Two PVC wheels of 8" fixed to an axle for better transportation.
- Low costs of investment and maintenance.
- It's manufactured under international norms and standards for working with an automated waste collection system.

FUNCTIONALITY

The design of the container **VIC-240** makes for an easy manual or automatic transfer of residues.

- You can use any lift system to discharge waste.
- Since it doesn't have edges or defects, it facilitates the cleaning and discharge of waste.
- Avoids bad odors and sources of infection.
- Easy to transport since it's stackable.

CUSTOMIZATION

We can label it with the legend of the type of material or your logo according to your needs.

FEATURES

CAPACITY: 240 L (63 US gal)

WEIGHT EMPTY: 50.6 lb.

TRASH CAN COLOR CODING:

- | | | | |
