

CALITAT 115 TRASH RECEPTACLE

CUSTOMIZATION

According to your needs, it can be labeled with your logo or the type of material it contains.

DESCRIPTION

The material of the **CALITAT 115 Trash Receptacle** is medium density polyethylene which gathers the highest quality conditions, has a higher resistance to hits, and is anti-vandal.

- It has UV protection which avoids discoloration.
- The trash receptacle has three parts: a container, a front door, and a liner.
- The top of the trash receptacle is curved and prevents water accumulation on the inside.
- It's open from both sides to facilitate its filling.
- The front door has a key to take out the liner and discharge it.
- Liner.
- Low costs of investment and maintenance.

FUNCTIONALITY

The design of the **CALITAT 115 Trash Receptacle** is modern and perfect for indoor use.

- Since it doesn't have edges and defects, it facilitates cleaning and discharge.
- Large capacity and heavy-duty.
- Ornamental.
- Maintenance-free.
- Perfect for temporary solid waste collection.
- You can take out the trash just by opening the front door.
