

750 GENERAL PURPOSE PLASTIC TILT TRUCK

CODE: VOLQUETE 750

DESCRIPTION

Developed to provide reliable and secure material handling and transport. A durable structure built with premium materials delivers consistent performance across environments including warehouses, healthcare facilities, commercial centers, and maintenance operations.

An ergonomic layout paired with high-performance wheels enhances mobility and operational flow

Simple cleaning and impact-resistant construction contribute to elevated hygiene and safety standards in daily use.

FEATURES

- Load capacity suitable for efficient transport of heavy materials
- Ergonomic design that improves handling and helps reduce operator fatigue
- Space-efficient layout achieved through a compact structure that allows easy storage
- **Optional** lid manufactured from high-strength polymer
- **UV-resistant material** designed to maintain structural integrity and color under prolonged sun exposure

Resists sudden temperature changes

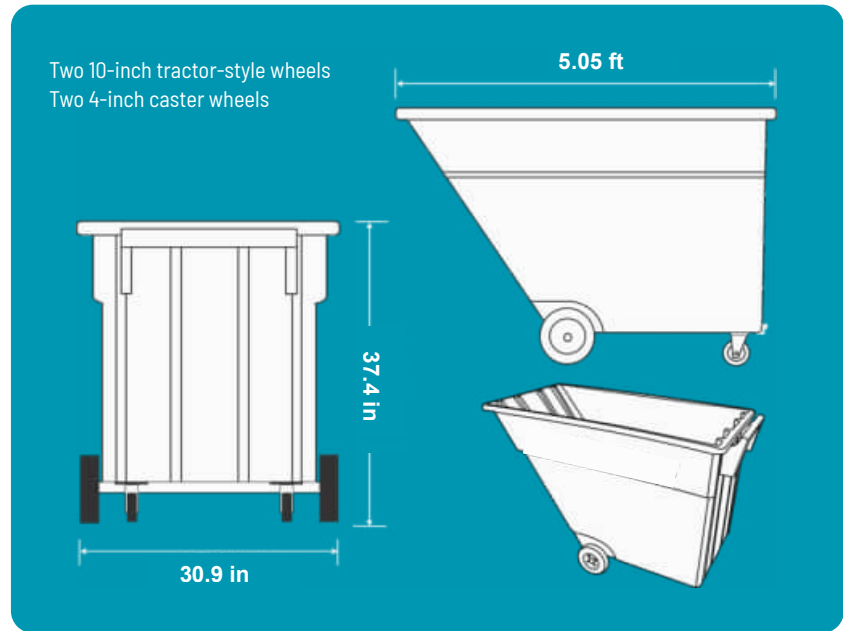

Impact- and deformation-resistant

Designed for easy handling

DIMENSIONS

 Length	5.05 ft
 Width	30.9 in
 Height	37.4 in
 Weight including handle	77.16 lb
 Weight including frame	116.84 lb
 Capacity	198.12 gal

AVAILABLE COLORS:

DESIGN & USE

- Built to enhance efficiency and safety, the **750 General Purpose Plastic Tilt Truck** enables smooth transport of materials in multiple operating environments
- A durable ergonomic design allows heavy loads to be handled with greater ease, helping optimize productivity in logistics and day-to-day operations
- Suitable for a wide range of industries, this container provides a functional and adaptable solution for routine material transport and handling
