

DOUBLE STREET CLEANING CART 200

DESCRIPTION

The material of the modern street cleaning cart **BAR-200** is medium-density polyethylene for better resistance to waste load and impacts.

- Its UV protection avoids discoloration by the sun.
- Two containers with handles, also its interior has a structure to attach the plastic bags making the discharge of waste easier.
- The lids are joined with a hinge to conceal the waste from the elements like rain or the sun to avoid accelerating its decomposition.
- One front container works as a locker; it includes a security key.
- A tubular metallic structure.
- It has anti-skid handles for better control of the cart.
- Four tire wheels of 15" fixed to an axle for better transportation.
- Its design has space up front for a shovel and two brooms.
- It includes a shovel and a broom.

CUSTOMIZATION

We can label it with the legend of the type of material or your logo according to your needs.

FUNCTIONALITY

- The **BAR-200** is perfect for trash collection, helping the environment, and keeping public spaces clean.
- Easy to discharge.
