

BAR 300

DESCRIPTION

This modern street cleaning cart **R-300** has two conical containers and a structure.

- The material of the containers is medium-density polyethylene which grants them higher resistance and avoids deformations.
- UV protection.
- Highly resistant to weather conditions.
- The lid is easy to detach.
- The tubular structure has two wheels of 14" and an aluminum rim for easy transportation.
- The structure has dual protection against corrosion.
- It has a locked compartment for cleaning equipment.

FUNCTIONALITY

- The street cleaning cart **BAR-300** is perfect for trash collection and the separation of different types of residues.
- Ideal for trash collection on public roads or buildings.
- Manual discharging.
- Easy to clean.
- Avoids sources of infection.
