

# 835 INSULATED BULK CONTAINER

CODE: ISOTÉRMICO 835

## DESCRIPTION

The **835 Insulated Bulk Container** is designed to deliver high resistance and thermal protection for the storage and transport of perishable goods. Manufactured from high-strength polymer, the container withstands strong impacts and extreme weather conditions.

A reinforced structure combined with polyurethane foam insulation helps maintain stable internal temperatures for up to 3 to 4 days, making this container a reliable choice for food, seafood, pharmaceutical, and logistics industries.

## FEATURES

- An injected expanded polyurethane foam core delivers high thermal insulation performance
- UV-stabilized additives within the polymer enhance durability during long-term outdoor exposure
- A secure lid fit helps maintain internal temperature control and reduces cross-contamination risks
- Fully recyclable materials contribute to environmentally responsible use

Resists sudden temperature changes

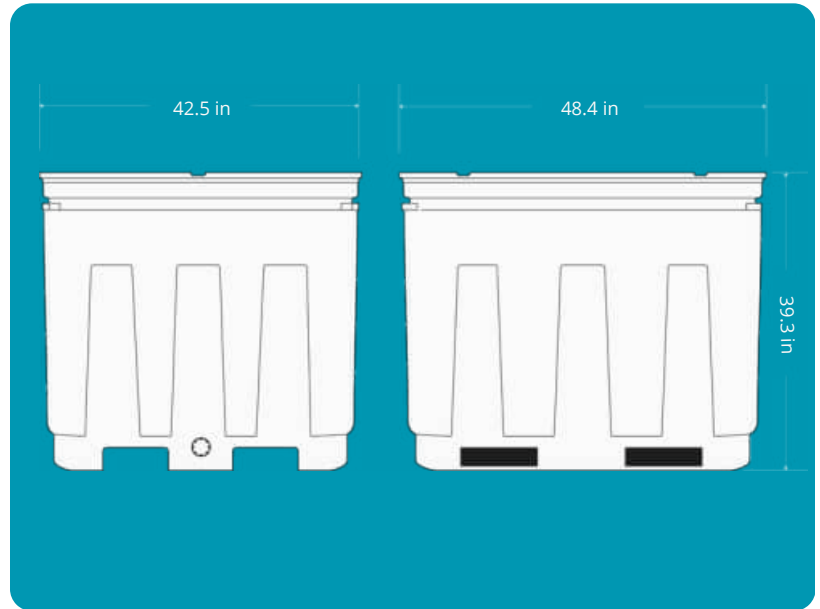

These containers are used in industrial environments

Designed with forklift access for efficient handling

## DIMENSIONS

 Top length	48.4 in
 Top width	42.5 in
 Bottom length	47 in
 Bottom width	40.5 in
 Height	39.3 in
 Weight	194 lb

## DESIGN & USE

- Preserves internal temperatures during exposure to high ambient heat
- Contributes to cost efficiency by limiting secondary cooling requirements and improving load capacity per transport cycle
- Applicable across agriculture, fishing, pharmaceutical, chemical, meat, and cold-chain logistics sectors

Versatile for demanding industries and food handling
