

# 600 INSULATED BULK CONTAINER

CODE: ISOTÉRMICO 600

## DESCRIPTION

The 600 Insulated Bulk Container is designed to deliver an efficient solution for the storage and transport of products requiring thermal preservation. Manufactured from high-strength polymer, this container provides enhanced resistance to impacts, harsh weather conditions, and heavy-duty use.

A robust and durable design makes it suitable for food, pharmaceutical, and logistics sectors, where maintaining stable temperatures during storage and transport remains essential.

## FEATURES

- Manufactured from high-strength polymer, delivering an effective balance between structural strength and flexibility
- Injected polyurethane foam filling provides high thermal insulation, helping maintain stable internal temperatures for 3 to 4 days
- A firmly fitted lid delivers a secure, leak-resistant seal that helps prevent cross-contamination, leaks, and external agent ingress
- Forklift-compatible slots integrated into the base enable efficient handling and transport without manual effort

Resists sudden temperature changes

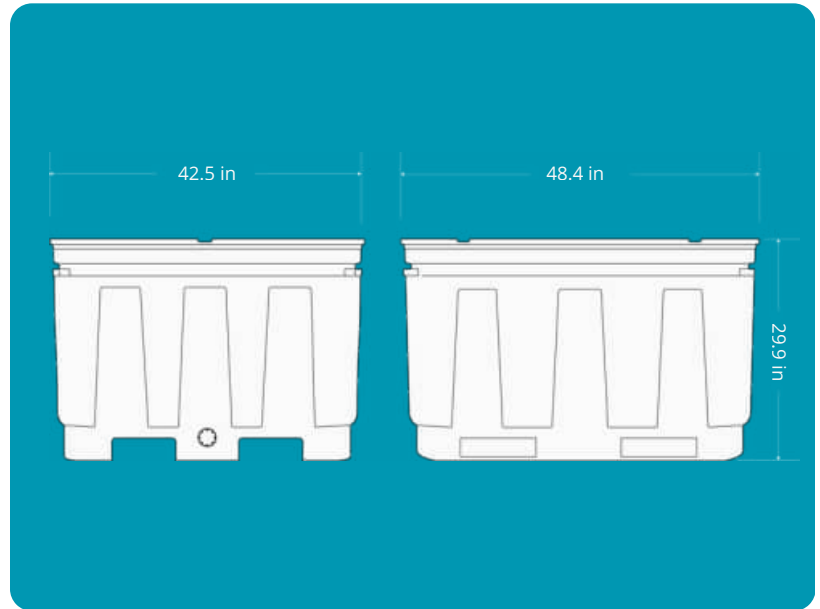

These containers are used in industrial environments

Designed with forklift access for efficient handling

## DIMENSIONS

 Top length	48.4 in
 Top width	42.5 in
 Bottom length	47 in
 Bottom width	40.5 in
 Height	29.9 in
 Weight	110.2 lb

## DESIGN & USE

- Designed for storing perishable products such as seafood, meat, dairy, ice, and pharmaceuticals
- Appropriate for in-plant handling, distribution, and export processes across multiple industries with strict hygiene and conservation requirements
- Fully recyclable construction contributes to sustainable environmental practices

Versatile for demanding industries and food handling
