

PLAS-200 WASTE CONTAINER

DESCRIPTION

The material of the **PLAS-200** is medium-density polyethylene that gathers higher resistance to heavy impacts and weather conditions.

- It's easy to maneuver due to its cylindrical shape.
- Heavy-duty.
- Works under severe conditions.
- Weather resistance and UV protection.
- The detachable lid is useful for concealing waste and avoiding bad odors.
- The three optional 3" swivel casters improve its transportation.

FUNCTIONALITY

The 200 L (53 US gal) capacity of the **Plastic Drum** makes it perfect for storing water, chemicals, oil waste, preservatives, and others.

- Practical, user-friendly, and easy to store.
- Useful for warehouses or temporary storage of residues.
- It can be mounted over pallets.

CUSTOMIZATION

According to your needs, it can be labeled with your logo or the type of material it contains.
