

SUPER BIN 580 VENTED PALLET CONTAINER

CODE: S-BIN-580-R

DESCRIPTION

The **Super Bin 580 Vented Pallet Container** is built for efficient collection, transport, and storage of fruits, vegetables, and assorted food products.

Manufactured in Mexico from high-strength polymer, the container handles impact exposure, demanding environmental conditions, and continuous heavy-duty operations. Slotted walls with 5 mm openings promote consistent airflow, helping extend freshness of perishable products by reducing moisture accumulation.

FEATURES

- FDA approved for food use
- A solid, impact-resistant structure suited for agricultural and industrial handling in high-demand environments
- Design features help limit moisture retention, reducing the risk of mold or bacteria and extending the usable life of fresh products
- Reinforcement in high-load and wear-prone zones provides greater durability compared to single-wall containers
- Four integrated manual lifting slots enable safe and controlled handling

Resists sudden temperature changes

These containers are used in industrial environments

Features a forklift opening

DIMENSIONS

 Length	1165.0 mm
 Width	1165.0 mm
 Height	580.0 mm
 Weight	83.8 lb

Container color classification:

DESIGN & USE

- Designed to streamline the transport and storage of agricultural products
- A double-wall construction enhances durability and resistance to impact during handling
- Compatible with cold storage, detergent-based washing, and high-humidity operating conditions
- Ergonomic manual lifting slots combined with forklift compatibility enable safe and efficient handling
- Slotted walls promote airflow, making this container well suited for perishable goods

Versatile for demanding industries and food handling
