

CONTENELOCK 360 HD TRASH BIN WITH SECURITY LOCK

CODE: CONTENELOCK-360-HD

DESCRIPTION

What is Contenelock?

Contenelock 360 HD provides reliable protection against container theft.

Anchored to the ground, it secures the container and blocks unauthorized access or removal.

Durable waste container with a sturdy lid, constructed from high-strength polymer to withstand impact and weather.

Hinges are reinforced with two bolts for long-lasting performance.

Includes two heavy-duty plastic wheels and a galvanized steel axle for smooth handling.

The full structure is finished with electrostatic coating, improving resistance to corrosion and outdoor wear.

FEATURES

- Reinforced hinge lid secured with two metal bolts
- Engineered to withstand impacts, chemicals, vandalism, and extreme weather
- Equipped with two durable plastic wheels for smooth mobility
- Automatic parrot-style locking mechanism
- Base designed with four concrete anchors and screws for stable installation
- Finished with electrostatic paint for protection against corrosion and scratches

Resists sudden temperature changes

Suitable for commercial and industrial environments

Designed for easy handling

DIMENSIONS

 Length	11.8 in
