

IGLOO 200 RECYCLING BIN

DESCRIPTION

The material of the **IGLOO 200 RECYCLING BIN** is medium-density polyethylene through a rotational molding process which gathers the highest resistance to extreme weather conditions.

- It can have different inlets to differentiate them.
- These inlets change depending on their use and placement.
- UV protection.
- Minimum maintenance.

FUNCTIONALITY

Since the main goal is recycling, the principal use of the **IGLOO 200 RECYCLING BIN** is to easily identify the bins.

They are identifiable through distinctive labels and signs. You can add a TAM-200 drum inside.

CUSTOMIZATION

According to your needs, it can be labeled with your logo or the caption of the type of material it contains.
