

# 1000 USED OIL CONTAINER

CODE: ACEITERO

## DESCRIPTION

Designed for high-volume oil handling, the 1000 Used Oil Container combines capacity, durability, and operational reliability. Its rotomolded, high-strength polymer body resists impacts, cracking, and extreme environmental conditions, making it a dependable solution for intensive use in industrial, hospitality, and commercial kitchen environments.

## FEATURES

- Wide lid design provides a secure seal that limits odors, moisture intrusion, and bacterial development
- Rounded internal corners help prevent waste accumulation and allow faster, easier cleaning
- Designed for integration with automated waste collection systems meeting international regulations
- Cost-efficient solution with low maintenance and long-term operational savings
- Durable construction suitable for demanding and high-traffic environments

Resists sudden temperature changes

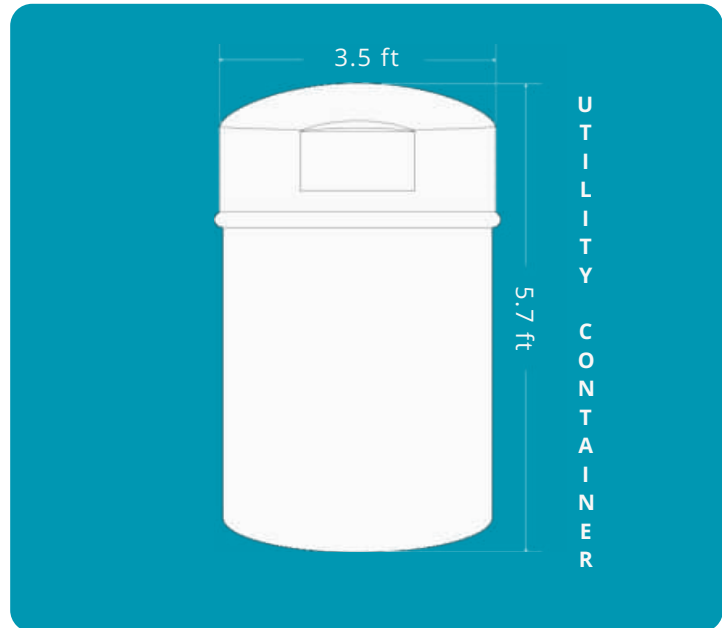

For containers and liquids

Impact- and deformation-resistant

## DIMENSIONS

 Diameter	3.5 ft
 Height	5.7 ft
 Oil storage capacity	264.17 gal
 Container storage capacity	66 gal
 Weight	83.7 lb

## DESIGN & USE

- Secure wide-lid design promotes clean operation by reducing spills, odors, and unwanted entry of water or pests
- Designed for high-capacity used oil handling in demanding industrial and commercial settings
- Aligned with international standards to improve collection efficiency and operational safety

A robust design combined with practical features to enhance every space
