

CYLINDRICAL TRASH CAN WITH SWING LID

CODE: BAL2830 P3

DESCRIPTION

The stainless steel **CYLINDRICAL TRASH CAN WITH SWING LID** is an excellent and functional waste solution, designed for durability and low maintenance. Its surface will not scratch or warp with regular use, and when polished, it delivers a luxurious, mirror-like finish that enhances the sense of cleanliness and freshness in any space.

- Manufactured from Type 430 stainless steel sheet, 22 gauge, ensuring durability and practicality, this model features electrowelded joints and a removable lid for fast and easy access to the container's interior
- The high-resistance plastic base protects both the unit and the floor, preventing scratches and stains—even on wet surfaces
- The structure is resistant to sunlight, rain, and corrosion
- The side opening allows for convenient waste disposal and includes sand
- Designed to be fully accessible for users with disabilities

DESIGN & USE

- Designed for both indoor and outdoor environments
- The lid includes a swing system engineered for smooth, reliable operation
- These stainless steel cylinders combine a minimalist design with a high-quality finish
- Perfect for offices, lobbies, hotel rooms, residential facilities, hospitals, plazas, and shopping malls, where aesthetics and performance are equally essential
