

STAINLESS STEEL SQUARE SWING-TOP TRASH CAN

CODE: CAMP302570 P3

DESCRIPTION

The **STAINLESS STEEL SQUARE SWING-TOP TRASH CAN** is made from two components manufactured from 24-gauge Type 430 stainless steel.

This container is resistant and long-lasting, maintaining their shape and finish without scratching or warping. When polished, the unit delivers a luxurious, mirror-like look that enhances the perception of order, cleanliness, and freshness.

- The can and swing lid feature electrowelded joints
- Both components are oxidation-resistant and designed with an elegant appearance, with a smooth, polished finish
- This container withstands exposure to sunlight, water, and corrosion

DESIGN & USE

Well-suited for offices, lobbies, hotel rooms, residential facilities, hospitals, plazas, and shopping malls—spaces where aesthetics matter as much as performance.

CUSTOMIZATION

Units can be customized with labels as required, including material-identification text or your organization's logo.
