

# PC-1.44 SHARPS AND BIOHAZARD WASTE CONTAINER

CODE: PC-1.44

## DESCRIPTION

The container is designed for the safe handling of sharp objects such as needles and scalpels in medical environments. The durable material prevents punctures and provides secure disposal. The container includes a seal indicating hazardous contents, promoting safety in waste management.

It is ideal for accessible areas, providing an effective solution for the disposal of dangerous waste.

The container's structure ensures that waste is managed safely, reducing the risk of accidents.

Specially engineered for applications requiring controlled incineration, the design guarantees clean and safe combustion. The chlorine-free composition and minimal heavy-metal content significantly reduce the generation of polluting emissions during the combustion process.

## FEATURES

- Sharps container designed for the safe disposal of hazardous items like needles and scalpels
- Single-use system enhances safety and prevents contamination
- This compact design allows for convenient storage and handling
- Protects users by preventing direct contact with sharps
- User-friendly and suitable for hospitals, clinics, and laboratories

Complies with  
**NOM-087-SEMARNAT-2002  
STANDARD**

Biological  
waste only

Hazardous  
waste only

Sharp object  
protection

Controlled  
incineration

## DIMENSIONS

 Length	6.3 in
 Width	6.3 in
 Height	6.7 in
 Capacity	0.5 gal
 Weight	3.9 oz

## MATERIAL COMPOSITION

	Chlorine-free
	Total heavy-metal content: $\leq 1$ ppm

## DESIGN & USE

- The **PC-1.44 Sharps and Biohazard and Waste Container** is designed for the safe disposal of sharp instruments, minimizing the risk of direct exposure to hazardous materials. Manufactured from durable, puncture-resistant material, it can be customized with company logos or biohazard warnings for better visibility and compliance in healthcare settings

Guaranteed safety in hazardous waste handling!
