

PC-44 SHARPS AND BIOHAZARD WASTE CONTAINER

CODE: PC-44

DESCRIPTION

Designed to provide secure containment of sharps—including needles, syringes, and other hazardous items—this container delivers reliable protection in demanding healthcare environments. The durable, puncture-resistant construction ensures safe handling and prevents leaks or accidental exposure.

A hermetic lid enhances safety, while the high-visibility color makes hazardous waste easy to identify. Engineered to meet health standards, the container is an essential solution for medical waste management in hospitals, clinics, and labs.

FEATURES

- High-visibility color enhances quick identification of sharps waste in healthcare environments
- Designed for safe containment of syringes, needles, scalpels, and other sharp medical instruments
- Reinforced, stable base that prevents tipping and helps maintain secure placement
- User-friendly design that simplifies handling, transport, and disposal of medical waste
- Secure airtight lid that minimizes exposure risks and promotes safe operation

Complies with
**NOM-087-SEMARNAT-2002
STANDARD**

Biological
waste only

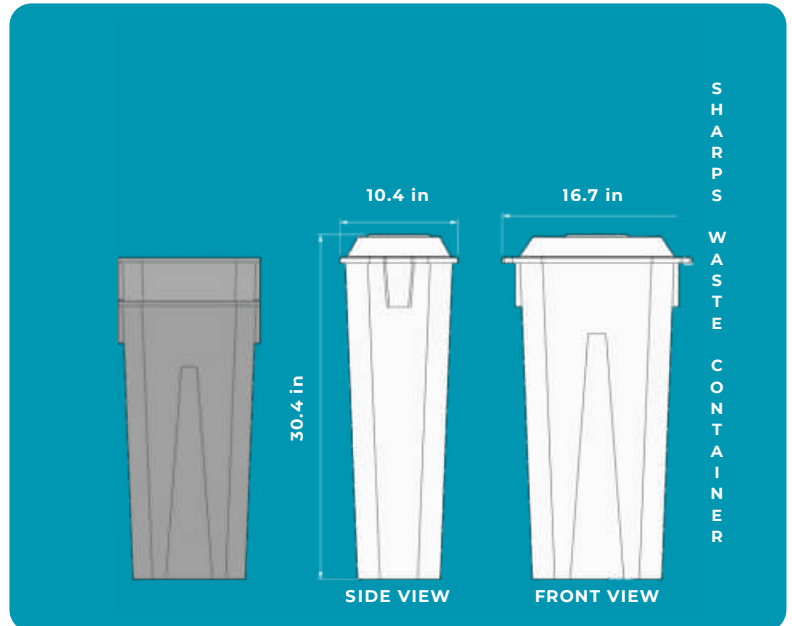

Hazardous
waste only
