

CHEWING GUM BIN

DESCRIPTION

- Made of RHS of 4" × 4".
- The top is made of stainless steel.
- Attractive design.
- It's highly resistant to weather conditions.
- Low maintenance.
- 5.85 × 5.85 × ¼ base.
- The powder coating finish guarantees optimum resistance to corrosion since it withstands up to 300 h in the salt spray test.
- Pink finish.
- It's recommended to install it with four 5/16" × 3" lag screws.
- A triangle safety key.
- Heavy-duty industrial lock.
- The 400-gauge polyethylene liner bag collects the chewed gum.

Safety key
