

SUPER BIN 580 PALLET CONTAINER

CODE: SBIN-580

DESCRIPTION

The **Super Bin 580 Pallet Container** is a solid, heavy-duty solution designed for agricultural and industrial storage and transport. An optimized structural design allows compatibility with mechanical handling and lifting systems, enhancing efficiency and safety across logistics operations.

A nestable and stackable configuration maximizes vertical space usage, helping reduce storage footprint and improve warehouse organization.

FEATURES

- Double-wall construction at rear corners and center section enhances structural rigidity
- Internal reinforcements resist impacts and heavy loads without permanent deformation
- Designed for use with forklifts or pallet jacks from all four sides
- UV-stabilized material enables long-term outdoor exposure without material degradation
- Four integrated hand-grip areas allow manual lifting or repositioning without tools

Resists sudden temperature changes

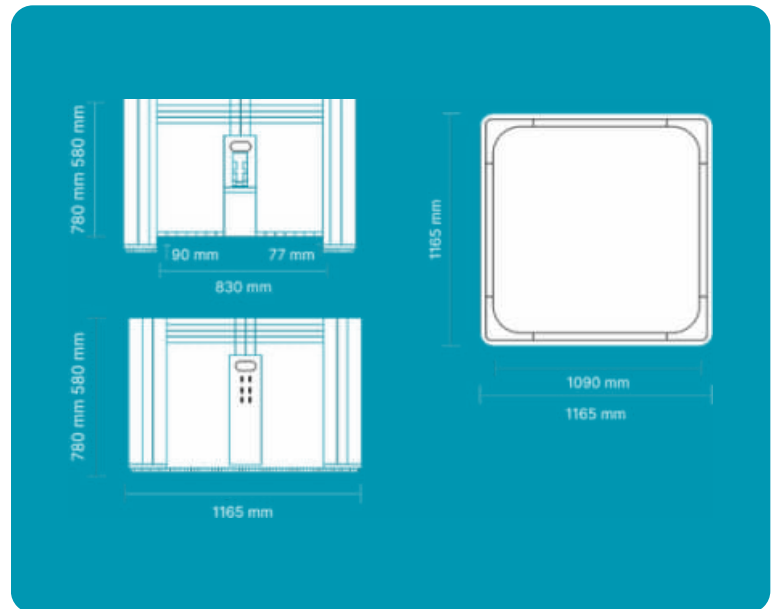

These containers are used in industrial environments

Features a forklift opening

DIMENSIONS

 Length	1165.0 mm
 Width	1165.0 mm
 Height	580.0 mm
 Capacity	132 gal

Container color classification:

DESIGN & USE

- Suitable for fruits, vegetables, industrial components, bulk materials, and automotive parts
- A stackable and nestable structure improves efficiency in storage and transportation
- Available with optional accessories such as lids, RFID labels, drain valves, and special colors for process segmentation
- Reduces losses caused by impact, compression, or contamination, maintaining higher product integrity during handling and storage

Versatile for demanding industries and food handling
