

WASTE CONTAINER VIC-550

DESCRIPTION

The material of the waste container **VIC-550** is medium-density polyethylene that gathers the highest resistance to hits and breaks. It's manufactured through a rotational molding process.

- It includes UV protection that guarantees less wear and tear.
- It has three parts: body, lid, and hatch.
- The lid, slightly larger than the body, prevents the leakage of bad odors and sources of infection and water from entering. In addition, the hatch facilitates the access of plastic bags.
- Its body has a smooth interior and rounded corners that avoid the accumulation of residues.
- It has four caster wheels of 4" Ø that facilitate the maneuver on sidewalks and irregular surfaces; it also improves its transportation.
- Two pickup pockets for auto-loaders (optional).
- It's manufactured under international norms and standards for working with an automated waste collection system.

FUNCTIONALITY

The design of the container **VIC-550** makes for an easy manual or automatic transfer of residues.

- You can use any lift system to discharge waste.
- Since it doesn't have edges or defects, it facilitates the cleaning and discharge of waste.

CUSTOMIZATION

We can label it with the legend of the type of material or your logo according to your needs.

FEATURES

CAPACITY: 550 L (145 US gal)

WEIGHT: 81.4 lb.

WASTE CONTAINER COLOR CODING:

- grn** Organic: Food, fruits, and vegetables.
- bl** Plastic: Bottles.
- gr** Inorganic: Fabric, shoes, boxes, etc.
- rd** Bio hazardous and biomedical.
- yl** Paper: Paper, cardboards, newspapers, etc.

MEASURES:

Length: 3 ft 4 in.

Width: 32.56 in.

Height: 3 ft 10 in.

Volumes, dimensions, and other measures are nominal and may vary by approximately 2 %.
