

ECOL HD1 RECYCLING STATION

CODE: ECOL-360-HD1 / 240-HD1 / 480-HD1 / 480-HD2 / 600-HD1

DESCRIPTION

The ECOL HD1 Recycling Station is designed to encourage proper waste separation in urban, tourist, and corporate environments. Includes a set of VIC 120 HD waste bins made from high-strength polymer. The one-piece construction eliminates riveted components, reducing stress points and enhancing long-term durability.

Each container consists of two components: body and lid, both featuring smooth surfaces that simplify cleaning tasks.

Ecol-360-HD1

Ecol-480-HD1

Ecol-600-HD1

Ecol-240-HD1

Ecol-480-HD2

Resists sudden temperature changes

Recyclable, sustainable materials

For outdoor installation

FEATURES

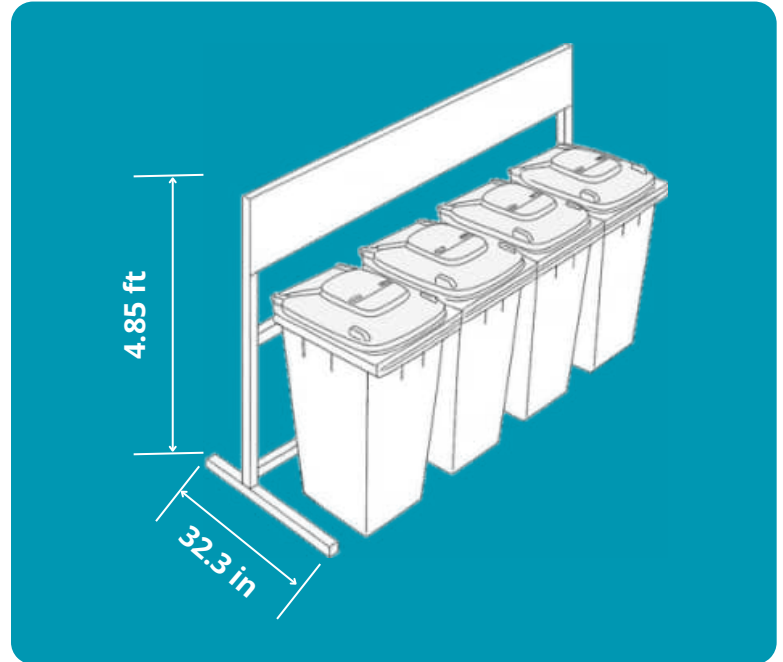

- Two or more VIC 120HD waste bins
- 18-gauge galvanized steel advertising panel
- Anti-vandal system with security pin and dedicated key
- Galvanized metal support axle
- Customizable for waste separation

DIMENSIONS

 Length <small>(Variable according to the number of waste bins)</small>	3.6 - 7.2 ft
 Width	32.3 in
 Height	4.85 ft
 Capacity	63.4, 95.1 or 126.8 gal

Container color classification:

- | | |
|--|--|
|  Organics |  Non organics |
|  Plastics |  Mixed waste |
|  BIHW |  Recyclable materials |

DESIGN & USE

- Developed for recycling programs in urban areas, hotels, and educational facilities
- Functional top area for environmental messaging or institutional branding
- Built to withstand impacts, moisture, and extended solar exposure
- Streamlines waste separation across public and private environments

Make waste management
simpler and safer
