

# SQUARE PLANTER FOR GARDEN

CODE: TIUM-CJ41

## DESCRIPTION

The Square Planter for Garden combines durability and design with high-strength polymer construction. Seamlessly molded in a single piece, this design eliminates joints and rivets, minimizing weak points while ensuring maximum structural stability.

Perfect for indoor or outdoor use, it resists harsh weather and UV exposure.

Available with or without a protective coating, this planter can be customized to meet different style and functional needs.

## FEATURES

- Square design with gently rounded corners for a contemporary style
- Built to withstand impacts, heavy use, and crushing forces
- Corrosion- and degradation-resistant for long-lasting performance
- Made from fully recyclable materials

Resists sudden temperature changes

Built-in reabsorption mechanism

## DIMENSIONS

 Height	16.1 in
 Width	16.9 in
 Length	16.9 in
 Weight	5.5 lb
