

SQUARE GARDEN PLANTER

CODE: TIUM-CJ28

DESCRIPTION

The TIUM VL38 Square Garden Planter is manufactured from high-strength polymer and molded as one continuous piece, free of joints or riveted sections. This construction prevents weak points, delivering superior structural integrity and dependable long-term performance.

Designed for indoor and outdoor use, featuring climatic resistance and UV shielding

Can be supplied coated or uncoated to meet diverse design styles and performance needs

FEATURES

- The planter features a square shape with rounded corners
- Delivers exceptional resistance to impact, deformation, and compression
- Non-corrosive material that remains stable without degrading
- Fully recyclable construction

Resists sudden temperature changes

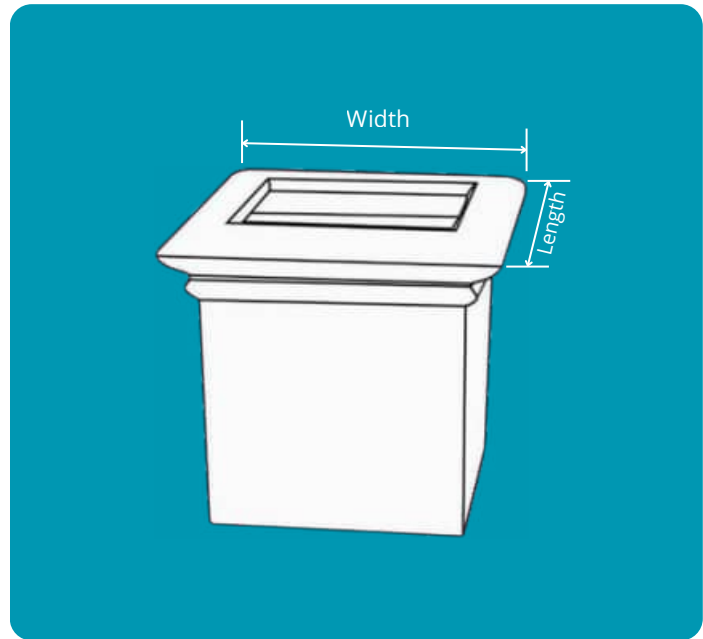

Built-in reabsorption mechanism

DIMENSIONS

 Height	11 in
 Width	17 in
 Length	17 in
