

CH 40 POLE MOUNT TRASH CAN

DESCRIPTION

The material of the **CH 40 Pole Mount Trash Can** is HDPE through a rotational molding process which gathers higher resistance to impacts and avoids deformations.

- Since it's detachable, it makes it easier to discharge.
- UV protection.
- It's resistant to weather conditions.
- The lid has an opening of 4.13 in. that prevents the deposit of larger trash bags.
- It was designed by the Mexican sculptor Miguel Ángel González.
- It can have a pole for embedding the trash can to the floor, a pole for display, or a pole with a plate to attach it (not included.)

CUSTOMIZATION

According to your needs, it can be labeled with your logo or the type of material it contains.

FUNCTIONALITY

Since the **CH 40** is perfect for waste collection and recycling, it helps the environment and keeps public spaces clean.

- You can discharge the waste by opening the lid on the bottom.
- Easy to clean.
- Avoids sources of infection.
- You can add 1, 2, 3, or 4 trash cans on the same pole.
