

# DINOVAN 50L RECYCLE BIN

## TECHNICAL SPECIFICATIONS:

<b>Capacity:</b>	13.2 gal
<b>Material:</b>	High-strength polymer
<b>Mounting:</b>	Post-mounted
<b>Emptying method</b>	Lockable door with triangular key
<b>Available colors:</b>	Green, blue, and gray

## FEATURES:

- Manufactured from 100% virgin high-strength polymer through a single-piece injection process, ensuring a minimum service life of 5 years
- Designed to withstand extreme temperatures and treated with UV protection for greater durability
- Promotes cleaner urban spaces while improving the aesthetic quality of the surrounding area
- The upper lid prevents water ingress, keeping internal waste dry
- Includes a cigarette snuffer
- This polymer safety-key emptying mechanism streamlines collection by allowing quick removal of the lower bin section
- No additional base is required; it can be mounted on streetlight poles or other existing structures
