

FIRE EXTINGUISHER CABINET

CODE: PTA286OP3

DESCRIPTION

Luxury cabinet designed for portable dry chemical and CO₂ fire extinguishers.

- Engineered to protect fire extinguishers in spaces where a non-wall-mounted solution is preferred for aesthetic reasons
- Manufactured from 24-gauge Type 430 stainless steel with electrowelded joints. Features a black-finished carbon-steel lid and a plastic base to prevent floor damage
- Mirror and polished exterior
- Includes a viewing window for quick content verification
- Concave top prevents debris and water buildup
- Medium-size model

DESIGN & USE

- Perfect for offices, reception areas, hotel rooms, residential settings, hospitals, plazas, and shopping malls—spaces where aesthetics are just as essential as functionality
- Designed to be accessible for individuals with disabilities
- **Extinguisher not included**

CUSTOMIZATION

Can be customized with labels showing the type of material collected or featuring your company or institutional logo
