

# BLACK POLYMER BAG

CODE: BOLSA NEGRA

## DESCRIPTION

Designed for the safe collection of contaminated materials, as well as laboratory supply packaging, clean adhesive fabrics, and disposable caps. Manufactured from high-strength polymer, it ensures durability and protection against tears and punctures, preventing waste dispersion.

The discreet black finish allows for unobtrusive placement, and its ergonomic design facilitates efficient storage, handling, and transport, making it ideal for organized, compliant laboratory and workplace environments.

## FEATURES

- Optimized for infectious biological waste in hospitals, clinics, and labs
- Liquid-safe design minimizes exposure and contamination risks
- Multiple size options to suit any facility's needs
- Black finish for discreet and professional waste management
- Fully compliant with health standards for handling hazardous waste

Biological waste only

Safe handling of waste

Enhanced safety during storage and transport

## DIMENSIONS

Model	Dimensions	Capacity	Gusset
LNE-40-200	15.7 x 23.6 in	57.3 lb	YES
LNE-61-200	23.6 x 31.5 in	61.7 lb	YES
LNE-90-200	27.6 x 35.4 in	66.1 lb	YES
LNE-120-200	35.4 x 47.2 in	86 lb	YES

## DESIGN & USE

- The **Black Polymer Bag** delivers reliable handling of infectious biological waste in healthcare and laboratory environments. Manufactured from high-strength polymer, the bag resists tears and punctures to prevent hazardous material leakage. Secure, airtight closure keeps waste safely contained, reducing the risk of exposure and contamination
