

PC-3 SHARPS AND BIOHAZARD WASTE CONTAINER

CODE: PC-3

DESCRIPTION

This product provides a safe and effective solution for the collection and disposal of Biological-Infectious Hazardous Waste (BIHW). Specifically designed to meet sanitary regulations, these containers create a protective barrier that minimizes the risk of exposure to hazardous materials.

Manufactured from durable materials, the hermetic lid ensures a secure seal, preventing leaks and the spread of contaminated waste. These containers are ideal for hospitals, clinics, laboratories, and any facility that handles infectious biological waste.

Specially engineered for applications requiring controlled incineration, promoting clean and safe combustion. A chlorine-free composition combined with minimal heavy-metal content substantially limits pollutant emissions during the incineration process.

For added stability, the optional SUJE-3 Wall Support for easy transport can be purchased as an accessory

FEATURES

- Puncture-resistant material that provides secure containment of biological-infectious waste
- Safe and easy emptying system designed to prevent contact with waste
- Complies with local and international regulations for the handling of biological-infectious hazardous waste (BIHW)
- Compact and stackable design that optimizes space in reduced work areas.
- High corrosion resistance, ensuring a long service life

Complies with
**NOM-087-SEMARNAT-2002
STANDARD**

Biological waste only

Hazardous waste only

Sharp object protection

Controlled incineration

DIMENSIONS

 Length	5 in
 Width	4.5 in
 Height	9.7 in
 Weight	6.7 oz
 Capacity	0.8 gal

MATERIAL COMPOSITION

 Chlorine-free
 Total heavy-metal content: ≤ 1 ppm

DESIGN & USE

- The PC-3 Sharps and Biohazard Waste Container is designed to provide a safe and effective solution for managing sharps such as needles, syringes, and other potentially hazardous materials
- Its secure, easy-to-use lid provides a hermetic seal that prevents unauthorized access, reducing the risk of accidents and exposure to biological-infectious waste

Make hazardous waste
collection easier
