

LIMOUSINE

DESCRIPTION

This modern street cleaning cart **LIMOUSINE** has two, three, or four containers and a tubular structure. The material of the containers is medium-density polyethylene which grants them higher resistance and avoids deformations.

- UV protection.
- The structure has dual protection against corrosion.
- Highly resistant to weather conditions.
- The tubular frame consists of two tractor-type wheels of 10" (front) and two caster wheels of 3" for easy transportation.
- The lid has a handle; the curved shape blocks water from stagnating and getting inside the container.
- The trash cans can have different colors depending on the type they collect.

FUNCTIONALITY

- The street cleaning cart **LIMOUSINE** is perfect for trash collection and the separation of different types of residues.
- Ideal for trash collection on public roads or buildings.
- Manual discharging.
- Easy to clean.
- Avoids sources of infection.
