

# PC-2 SHARPS AND BIOHAZARD WASTE CONTAINER

CODE: PC-2

## DESCRIPTION

This container is specifically designed for the safe collection and disposal of sharps, intended to ensure proper management of hazardous waste in environments such as hospitals, clinics, and laboratories.

The container's suitable capacity allows for efficient use and storage in limited spaces, ensuring a safe environment.

It provides proper handling of waste, contributing to health protection and compliance with sanitary regulations.

Specifically designed for applications requiring controlled incineration, the bag delivers clean and safe combustion. The chlorine-free composition and very low heavy metal content minimize the release of harmful emissions during incineration.

## FEATURES

- Durable construction: Long-lasting performance under heavy use
- Safety & hygiene compliance: Meets standards for hazardous waste management
- High strength: Resists deformation and breakage under demanding conditions
- Space-efficient design: Compact for easy storage and handling
- Environmentally friendly: Made from recyclable materials to minimize impact

Complies with

**NOM-087-SEMARNAT-2002  
STANDARD**

Biological  
waste only

Hazardous  
waste only

Sharp object  
protection

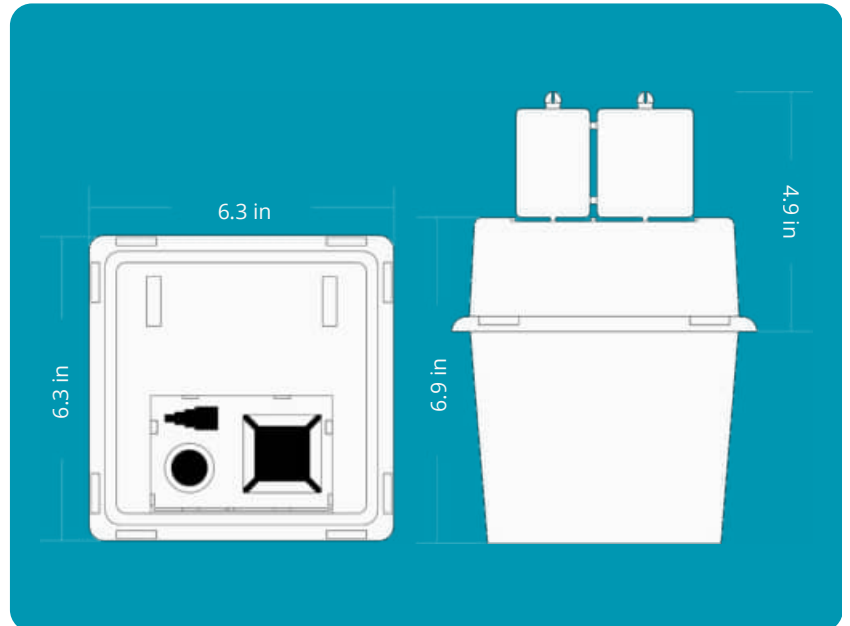

Controlled  
incineration

## DIMENSIONS

 Length	6.3 in
 Width	6.3 in
 Height	6.9 in
 Weight	7.4 oz
 Capacity	0.5 gal

## MATERIAL COMPOSITION

	Chlorine-free
	Total heavy-metal content: $\leq 1$ ppm

## DESIGN & USE

- The **PC-2 Sharps and Biohazard Waste Container** is designed to provide a safe, efficient, and practical solution for the management of sharps
- This container is specifically engineered for use in environments such as hospitals, clinics, and laboratories, complying with sanitary regulations for hazardous waste handling
- Compact and appropriately sized, it allows for efficient use and easy storage in confined areas

Safeguard your team as you  
care for the environment
