

PC 13 SHARPS AND BIOHAZARD WASTE CONTAINER

CODE: PC-13

DESCRIPTION

The **PC 13 Sharps and Biohazard Waste Container** delivers dependable containment for hazardous sharps waste across hospitals, clinics, laboratories, and mobile healthcare settings. Durable construction resists impact and minimizes the risk of leaks or material failure during handling or accidental drops. Disposal through physical destruction remains a safe and practical option.

A precision-assembly lid with leak-resistant closure, combined with an integrated needle separator and a dedicated sharps entry port, streamlines daily disposal tasks.

Designed for controlled incineration processes, the container promotes efficient combustion performance. Chlorine-free materials and low heavy metal content contribute to reduced emission levels during disposal.

FEATURES

- Precision-assembly lid delivers a tight, leak-resistant seal
- High-strength, impact-resistant material preserves structural integrity during daily handling
- Built-in needle separator improves safety during disposal
- Clear visual reference simplifies monitoring of fill level
- Suitable for hospitals, clinics, laboratories, and healthcare facilities

Complies with

**NOM-087-SEMARNAT-2002
STANDARD**

Biological
waste only

Hazardous
waste only

Sharp object
protection

Controlled
incineration

DIMENSIONS

 Length	8.2 in
 Width	13.4 in
 Height	14.3 in
 Weight	1.29 lb
 Capacity	3.4 gal

MATERIAL COMPOSITION

	Chlorine-free
	Total heavy metal content: ≤ 1 ppm

DESIGN & USE

- The **PC 13 waste container** provides reliable control during the disposal of sharp objects, reducing exposure risks and workplace incidents.
- Robust construction and a tight-seal closure maintain secure containment throughout the waste management cycle
- An integrated needle separation feature streamlines disposal immediately after use, contributing to higher biosafety standards for medical staff

Make hazardous waste collection easier
