

# SW25 INFLATABLE LIFE RING

CODE: SW25

## DESCRIPTION

The SW25 Inflatable Life Ring is a maritime safety device designed to deliver reliable protection in hazardous situations. Manufactured from high-resistance polymer, the product delivers long service life, consistent flotation, and user comfort for offshore environments, beaches, and water parks. An ergonomic, lightweight design with no sharp edges enhances safe and effective response during water emergencies.

## FEATURES

- Clean, smooth surface designed for safe contact and handling
- Lightweight structure enhances portability and daily operation
- Requires no special maintenance throughout service life
- Engineered to withstand UV radiation, hydrocarbon exposure, impacts, and extreme temperature conditions

Resists sudden temperature changes

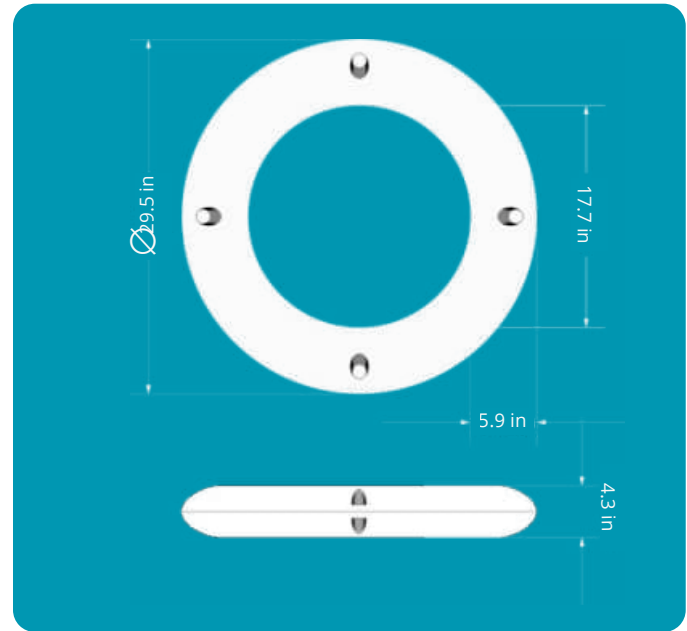

Resistant to impact and deformation

Emergency first aid

## DIMENSIONS

 Length	29.5 in
 Width	5.9 in
 Height	4.3 in

## DESIGN & USE

- Provides immediate flotation during maritime emergency situations
- Withstands prolonged sun exposure and adverse weather conditions
- The smooth surface ensures a comfortable and secure grip during use
- Delivers reliable performance even when in contact with hydrocarbons and related substances
- Lightweight and durable construction allows rapid handling during emergency maneuvers

**A robust design combined with practical features to enhance every space**
