

TAM 200

53 GALLON PLASTIC DRUM

DESCRIPTION

The material of the **TAM 200** is medium-density polyethylene that gathers higher resistance to heavy impacts and weather conditions.

- It's easy to maneuver due to its cylindrical shape.
- The screw-top avoids spills.

FUNCTIONALITY

The plastic drum is perfect for the deposit of liquid waste.

- Its main purpose is to organize and direct oil waste or other chemicals serving as a temporary storage drum.

CUSTOMIZATION

According to your needs, it can be labeled with your logo or the type of material it contains.
