

Rest Bench

Code: BA-DE-2000L/BA-DE-2000M/BA-DE-2000P

Leader don't follow steps
... marks the way

- The **Rest Bench** model has a "retro" design with armrests integrated to a strong structure enough to offer users a comfortable seat to talk, chat, read, wait for someone or -as its name said- to have a rest.
- The **Rest Bench** model has a design so adaptative for any environment as a urban furniture that contribute to a bettered cities and towns view and a good room for human activities.
- Benches are composed on two main lateral supports and a central one that sustain the backrest and the seat.

Both boards, seat and backrest, can be made of three different materials: » Wooden board with maritime polyurethane finishing.

» Profile of plastic-wood

» Steel dye cast cal. 12 and can carry your laser-cutted logo or advertising.

Quality and resistance of its materials allow an excellent performance in interiors and outsides with a very minimum maintenance.

RECOMMENDED USE

This model are perfect for gardens and playground where children can have fun while parents can rest and talk without the normal city hurries. The **Rest bench** can be a complement and armonize with other urban furniture.

FEATURES

The short model bench (70.86 in.) allows four or three sitting persons, and in the bigger (118.11 in.) between 5 or 6 persons, we can manufactured in the size that fit your needs on demand.

- Benches has a strong structure and stability thanks to its supports made out in 100 % recycled medium density polypropylene.
- The supports of the **Rest Bench** offer a specific zone to install it anchored to floor with "ultrafix"screws cal. 3/8" x 5.9 in. and expansive polypropylene tackets "extralarge" cal. 3/4" x 5.51 in.
- Materials of the **Rest Bench** are all weather resistant, so are ideal for gardens, parks, street and every urban zone.
- The lateral restarms are an extra element of confort in this bench model.
- The backrest and the seat are made out in extruded wood plank and easy assembly with galvanized lenticular head screws, nuts and washers.
