

Selva Bench

Code: BA-SE-2000M/BA-SE-2000L/BA-SE-2000P

Leader don't follow steps
... marks the way

- The aesthetic design of the Selva Bench with arched supports and sober styling combines excellently with any urban environment like turistic archeological zones, schools, bus stops or a railroad station.
- The polyethylene supports imitate tipycal old forged iron benches with the wooden backrest and seats integrate a functional, comfortable, strong and all weather resistant bench with minimum maintenance requirements, just cleaning sometimes.
- For interiors and outsides.
- Our bench line has two sizes (A= 5 ft 10.86 in. or B= 9 ft 10.1 in.) but - thanks to its strong supports-, we can construct them in any measure according your needs, just adding more supports.
- Both seat and backrest, can be made of three different materials:
 - » Wooden board with maritime polyurethane finishing.
 - » Profile of plastic-wood
 - » Steel dye cast cal. 12 (in this configuration we are offering the option of a laser-cutted logo or your corporative message on backrest).

FEATURES

- The **Selva Bench** design is comfortable, functional and resistant so its the perfect furniture for outsides.
- The finishing and the materials used in this bench are very strong resistant that guarantee a long life.
- The structural supports are medium density 100% recycled polyethylene with UV protection.
- The strong assembly of the bench are provided by 3/8" x 2½" lenticular head screws and nuts, with plane washers, all galvanized to get corrosion protection for exteriors use.
- Benches are anchored to floor with "ultrafix"screws cal. 3/8" x 5.9 in. and expansive polypropylene tacketts "extralarge" cal. 3/4" x 5.51 in.
- Ideal as a complementary urban furniture that armonize with any other items.

RECOMMENDED USE

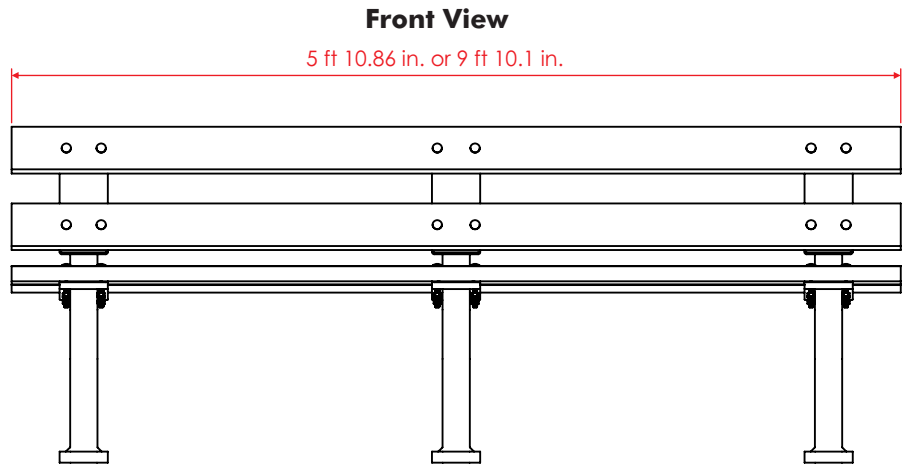

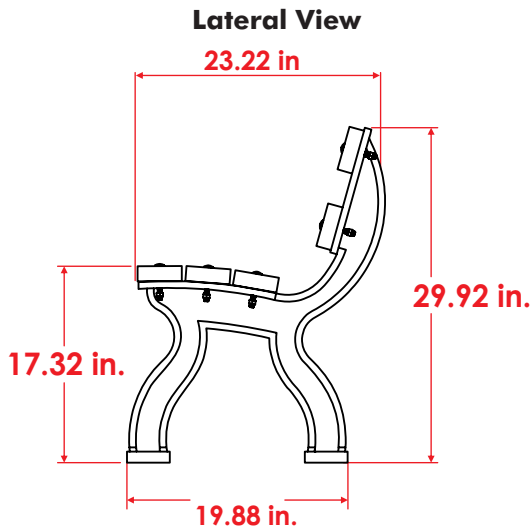

Benches are outile urban furniture needed in places where people use to wait a bus, a friend, or for sitting a while in a museum just for relax and take a breathe and continue your visit. Maybe you need to wait in an entrance hall of goverment offices and a Selva bench is one of the best options.
