

A leader doesn't follow steps
... he marks the way

CORNER GUARD

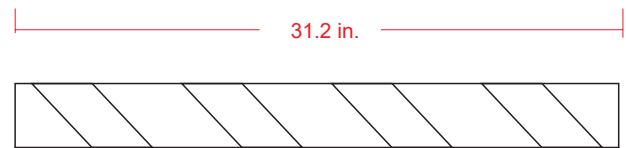

Code: ESQ-CAU-80

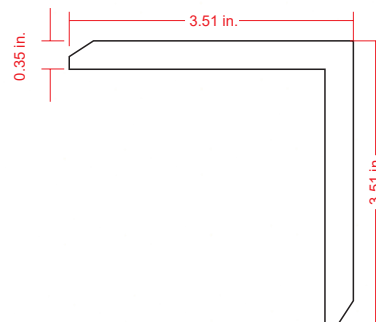

Features

- Made of rubber.
- Light and easy to handle.
- It's designed to absorb impacts.
- The corner guards are low-cost and long-lasting.
- They have reflective stripes that increase their visibility, especially at night. They also guide drivers so they can park.
- Not only the corner guards will protect the structure to which they are attached, but they will also save vehicles against bumps and scratches.
- UV protection. Extreme temperature and weather resistance.
- Perfect for indoors or outdoors parking lots.
- Useful in warehouses or factories where they use forklifts.
- It's easy to install: one person could do it. It has six boreholes.
- Permanent or temporal use.
