

Lightweight Mesh Roll

Code: CP-NA

Leader don't follow steps
... marks the way

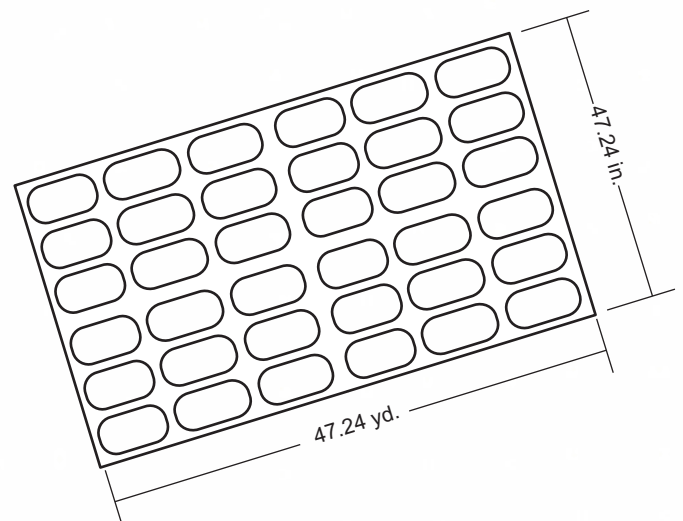

FEATURES:

- * Equipment for workers protection mainly on roads and construction branch.
- * Useful to reduce maintenance and accidents costs.
- * Fundamental in building and civil engineering.
- * Resistant to sun and high temperatures.
- * Mesh add protection & privacy.
- * Also used to circled or divide areas.
- * Ideal to cordon permanent works zones
- * Also for vehicular traffic and pedestrian flows.

TECHNICAL DATA:

- * **Made out in:** Polypropylene.
- * **Resistant:** weathering & U.V.
- * **Control:** vehicles and pedestrian traffic.
- * **Color:** orange
- * **Measure:** Length: 33.35 yd., Height: 47.24 in.
- * **Mesh tissue:** L: 3.14 in. W: 1.77
- * **Weight:** 19,84 lb.

Measures are nominal
and can vary,
between +- 2%.
