

We have taken it to the next level!

## WHAT IS A SOLAR-POWERED CHEVRON SIGN?

- Fully solar-powered, this device guarantees energy autonomy and efficiency—no wiring or external power required.
- Operates as a standalone unit or as part of a synchronized system, flashing in unison with other units to maximize visibility and driver awareness.
- Designed for performance in fog, rain, and other challenging weather conditions, it ensures dependable, long-term operation.
- With this chevron, you achieve both continuous safety and sustainable energy use.
- **Two-year warranty covering hidden defects and manufacturing flaws.**

## Features

- Manufactured with solid materials and a robust design to withstand possible vandalism attempts and severe haze conditions.
- Body manufactured from high-strength black polymer, molded in a single piece.
- Resistant to harsh weather and temperature changes, with UV protection.
- Long lifespan thanks to its non-corrosive properties.
- **Electronic system protected against water (IP68 rating).**
- Fully recyclable.
- Easily mounts on a reinforced 2" x 2" Postiflex® post, allowing quick installation and superior durability against vandalism.
- Reflective yellow background with a black vinyl arrow ensuring long-lasting adhesion.
- Chevron available with left or right arrow, depending on traffic direction.
- No resale value due to its polymer construction, discouraging theft.

### SOLAR LIGHTING SYSTEM

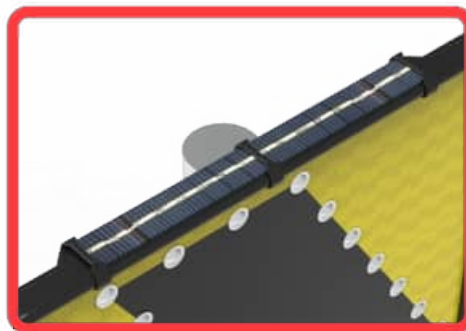

- 1.5 x 15.7 in solar panel.
- 30 LEDs in amber color with conical optics with mirror, causing light expansion, surrounding the arrow that indicates the way of circulation.
- 2 batteries of 1.5 V.
- JVM electronic circuit that synchronizes the flashing of chevrons at the same time.
- Charges during 5 hours under sun, lasts 12 hours ON in flashing mode

**CHEVRON IN RIGHT DIRECTION TO INSTALL IN THE SIDE OF CENTER LANE SEPARATOR**

**CHEVRON IN LEFT DIRECTION TO INSTALL IN THE SIDE OF SHOULDER (ROAD)**

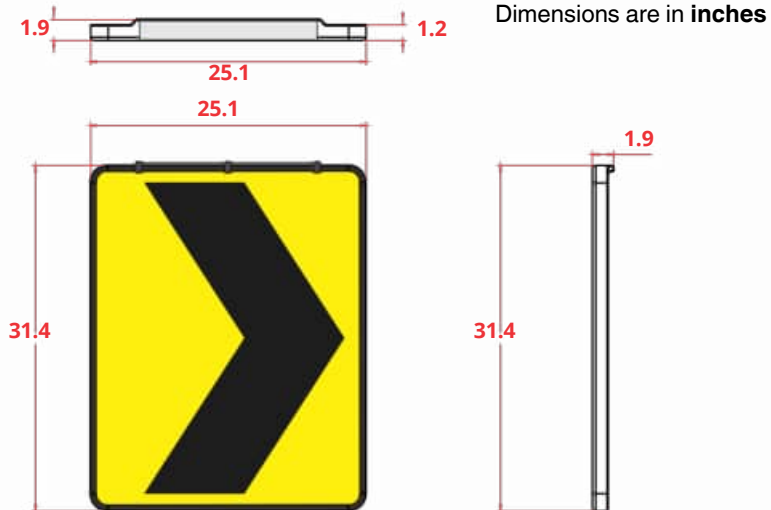

**1.5 X 15.7 in PHOTOCELL MOUNTED ON TOP PART OF SIGN**

# GLOBAL FORTE SIGN CHEVRON

Code: CHEVRON-S

Dimensions and other measurements are nominal and may vary by  $\pm 2\%$

**Lightweight and easy to install,  
it doesn't damage cars neither people**

## Dimensions

<b>Overall dimensions:</b>	Length: 25.1 in Width: 1.9 in Height: 31.4 in
<b>Board dimensions:</b>	Length: 24.0 in Height: 29.9 in
<b>Reflective element color:</b>	Yellow with arrow in opaque black vinyl

**CHEVRON  
IN LEFT  
DIRECTION**

## SYNCHRONIZED CHEVRONS

**CHEVRON  
IN RIGHT  
DIRECTION**
